ABOUT

Shimova (aka Alina Shimova) is a Russian-born and Miami-based contemporary female figurative painter, who weaves together classical techniques with a contemporary twist. Masterfully reimagining animalism as she infuses her subjects with her own language of spiritual symbolism and pop art influences, her work echoes with a deep reverence for the interconnectedness of all beings. Her paintings allude to ancient bonds between humanity and nature, while firmly situating us within the modern landscapes that shape our society, relationships, and world.
